## metal, stone, wood refinishing

### Metal Refinishing

The Lee Quigley Company performs many metal refinishing jobs on a one-time or as-needed basis. We provide finishing work on many architectural items including: elevator cab interiors, elevator hoistway doors, revolving door units, swing doors, handrails, window frames, door handles, panels, restroom fixtures, sculptures, and many more. We perform this service on-site at office buildings, hotels, restaurants, and schools.

#### The metals we service include:

- Bronze – mirrored, satin, orbital, and patina. Lacquered or natural.
- Stainless Steel – mirrored, satin, orbital. Lacquered or natural.
- Aluminum – duonodic, mirrored, natural, painted
- Steel – painted, natural, patina

#### Customers benefiting from One-Time Refinishing include:

- General contractors, glass companies, elevator companies, and metal fabricators needing final finishing work rely on us to provide timely, quality service.
- Some property managers, faced with a limited budget prefer to have their architectural metals refinished on an as-needed basis.
- Vandalism damage to elevator interiors can be performed overnight in an emergency situation.
