metal, stone, wood refinishing

## Wood Refinishing

The Lee Quigley Company can offer one-time service with a complete evaluation of your wood on repair and refinish to bring back its natural beauty. We can customize a maintenance program to keep your wood looking its best at all times.

Performing a touch-up to elevator wall panels with custom filling and grain matching is a specialty of ours. Many customers utilize our monthly or quarterly service to stay within the guidelines of their budget.

Call one of our Wood Care Experts to evaluate your wood to determine what type of service you need to repair or restore your wood to its natural beauty.
